**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This is the fourth office action for application number 10/646,954, Apparatus and Method for Universal Mounting a Computer System in a Vehicle, filed on August 22, 2003.

***Cancellation of Claims***

Claims 5, 10, and 12 have been canceled per applicant's request.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation of "a second elongate member... extending in a horizontal direction substantially perpendicular to the vertical direction in which the first elongate member extends" in lines 4-6 of claim 1 is new matter. Neither the specification nor the drawings teach/show the second member (28) extending in a perpendicular direction to the first member (22).

***Claim Objections***

Claims 1-4, 6-9, 11, and 13-20 are objected to because of the claim terminology should be consistent with the specification in an effort to alleviate ambiguity. The examiner interprets applicant's first elongate element as reference 22 (upright weldment), the second elongate element as reference 28 (tube mounting bar), and the holding frame means as reference 32 (holding frame). From this interpretation, the second elongate member is attached to the first elongated member at a top portion and wherein the second elongated member is parallel to the first elongate member.

***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 5,000,511 to Shichijo et al., hereinafter, Shichijo. Shichijo discloses an apparatus for mounting computer equipment (9) in a vehicle, comprising: a first elongate member (20) extending upward in a vertical direction; a second elongate member (19) fixed to a top portion of the first elongate member and extending in a horizontal direction substantially perpendicular to the vertical direction in which the first elongate member extends; a holding frame means (25, 27) fixed to a top portion of the second elongate member for holding the computer equipment; wherein the second elongate member is fixed to one side of the top portion of the first elongate member; and wherein the second elongate member is alternatively fixed to another side of the top portion of the first elongate member.

***Allowable Subject Matter***

Claims 6-9, 11, and 13-20 are allowed.

***Response to Arguments***

Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
